

Action no.	Action	Reaction	Use Case	Result
1.	Teacher enters the classroom management view	Verify if the view switch to the classroom management view	Resource Management – Scenario I	Functioning
2.	Teacher submits the request for entering a new classroom	Verify if the classroom has been added to the list of classes	Resource Management – Scenario I	Functioning
3.	Teacher submits the request for deleting an existing classroom	Verify if the classroom has been deleted form the list of classes	Resource Management – Scenario I	Functioning
4.	Teacher enters the topic management view	Verify if the view switched to the topic management view	Resource Management – Scenario II	Functioning
5.	Teacher submits the request for adding a new topic	Verify if the topic has been added to the list of topics	Resource Management – Scenario II	Functioning
6.	Teacher submits the request for editing an existing topic	Verify if the topic has been updated in the list of topics	Resource Management – Scenario II	Functioning
7.	Teacher submits the request for deleting a topic	Verify if the topic has been deleted from the list of topics	Resource Management – Scenario II	Functioning
8.	Teacher submits the request for adding a new word	Verify if the new word has been added to the list of words (specific to the selected topic)	Resource Management – Scenario II	Functioning
9.	Teacher submits the request for editing an existing word	Verify if the word has been updated in the list of words	Resource Management – Scenario II	Functioning

10.	Teacher submits the request for deleting an existing word	Verify if the word has been deleted in the list of words	Resource Management – Scenario II	Functioning
11.	Teacher enters the session creation section	Verify if the view switch to the session creation view	Session Creation - Scenario I	Functioning
12.	Teacher choses the classroom	Verify if in the session summary the chosen classroom is displayed	Session Creation Scenario I	Functioning
13.	Teacher choses the topic	Verify if in the session summary the choses topic is displayed	Session Creation Scenario I	Functioning
14.	Teacher selects the desired words for the session	Verify if all the selected words are displayed in the session summary	Session Creation Scenario I	Functioning
15.	Teacher choses to create the session	Verify if the view switch to the in-session view	Session Creation Scenario I	Functioning
16.	The system generates a unique access code for the session	Verify if the access code is displayed	Session Creation Scenario I	Functioning
17.	Teacher selects the desired question	Verify if the question is selected and make sure that the full information is presented in the review section of the view	Session Creation Scenario II	Functioning
18.	The teacher writes feedback for the question	Verify if the text is displayed in the respective section of the view	Session Creation Scenario II	Functioning
19.	The teacher chooses to accept/reject a question	Verify if the desired selection (accepted/rejected) is selected	Session Creation Scenario II	Functioning

20.	The teacher submits the feedback	Verify if the student is notified that a feedback was received	Session Creation Scenario II	Not Functioning
21.	The teacher enters the quiz creation section	Verify if the view has changed to the quiz creation view	Quiz Creation – Scenario I	Not Functioning
22.	The teacher selects the questions for the quiz and requests to create a quiz	Verify if a quiz was created with the selected questions	Quiz Creation – Scenario I	Not Functioning
23.	The student enters a session with a access code	Verify if the view has changed to the student session view	Session Participation – Scenario I	Functioning
24.	The student selects a word that will be used for a question	Verify if the word has become disabled, as well as the word is displayed in the selected word section and in the question summary section	Session Participation – Scenario II	Functioning
25.	The student selects the desired type of question from the available list of types	Verify if the type is displayed in the summary of the question section	Session Participation – Scenario II	Functioning
26.	The student enters the question text	Verify if the question text is displayed in the summary of the question section	Session Participation – Scenario II	Functioning
27.	The student enters the 4 possible answers for the question	Verify if the answers are displayed in the summary of the question section	Session Participation – Scenario II	Functioning
28.	The student selects the correct answer for the question	Verify if the answer is displayed in the summary of	Session Participation – Scenario II	Functioning

		the question section (correct answer)		
29.	The student submits a question for the review	Verify if the teacher has received the submitted question	Session Participation – Scenario II	Functioning
30.	The student selects the feedback for the desired question	Verify if the submitted feedback by the teacher is displayed for the student	Session Participation – Scenario III	Not Functioning
31.	The student enters a quiz	Verify if the view has changed to quiz view	Quiz Participation – Scenario I	Not Functioning
32.	The student answers the question for the quiz	Verify if the feedback for the answer is displayed and if the <i>next question</i> is available (with exception for the last question)	Quiz Participation – Scenario II	Not Functioning
33.	The student finishes the quiz	Verify if a summary of the correct/wrong answers is displayed	Quiz Participation – Scenario II	Not Functioning
34.	The teacher enters the history section	Verify if the view has changed to the history view	History – Scenario I	Not Functioning
35.	The teacher selects a classroom from the provided list of classrooms	Verify if the system displays all the session that the classroom has participated in	History – Scenario I	Not Functioning
36.	The teacher selects a session from the provided list of session	Verify if the system displays a general information about the session and a list of students that participated in that session	History – Scenario I	Not Functioning

37.	The teacher selects a student from the list of students	Verify if the system displays the information about the student (submitted question, accepted/rejected, words, etc.)	History – Scenario I	Not Functioning
38.	The student enters the history section	Verify if the view has changed to the history view	History – Scenario II	Not Functioning
39.	The student selects a session from the list of sessions that he/she/other has participated in	Verify if the system displays information in about the student's contributions during the session (submitted questions, accepted/rejected, etc.)	History Scenario II	Not Functioning
