

Scenario **Login as a teacher**

You are a teacher at the Sprogcenter Midt Horsens and would like to login into the software, you have the following information at your availability (not all information are required to be used you may add or modify the information as you wish) as follows:

- *First and last name – John Doe;*
- *Email – john@mail.com*
- *Account name – john0001;*
- *Password – password;*
- *Role – teacher;*

Please try to login in the system.

Scenario **Add a classroom**

After you have successfully logged in the system you decided to add a new class that you will operate with in your teaching process. You are provided with the following information (not all information are required to be used you may add or modify the information as you wish):

- *Class Name – Lokale 4 Aftenshold Modul 5;*
- *Class ID – L4AM5;*
- *Number of Students – 25;*
- *Location – Horsens;*

Please try to add the classroom.

Scenario **Add a topic and words, delete topic and words**

After you have registered your classroom you decided that a topic must be introduced in the system that you will use in your teaching process. You are provided with the following information (not all information are required to be used you may add or modify the information as you wish):

- *Topic name – Volunteering;*
- *Words – help, friendship, emotions;*

You also decide that the Topic University is outdated and it should be deleted from the system. As well as word Dinner from the Topic Home.

Please try to add the new topic and words, as well as delete the specified topic and word.

Scenario **Session**

After you have created a topic and added words to it, as well as a classroom, you decide that it is time to initiate your first session. Please create a session with the classroom, topic and words, created by you. After you have created the session, please identify where is the access code that the students will need in order to access your session.

Scenario **Review Question**

Being in a session a student has submitted a question, please identify where a preview of the question has been added and try to see the entire question.

Scenario **Register as a student**

You are a newly enrolled student at the Sprogcenter Midt Horsens, you are asked to register yourself into a system that will act as a teaching platform. You are provided with the following information (not all information are required to be used you may add or modify the information as you wish):

- *Account number – user0001;*
- *Start day language school – 01 September 2019;*
- *Price per Modul – 2000 kr;*
- *Role – student;*

Please try to register yourself in the system.

Scenario **Participate in a Session**

After you have successfully logged in you are provided with some information (not all information are required to be used you may add or modify the information as you wish) and are asked to join a session, information:

- *Access code – depends on the test;*
